

## Reach/RoHS/Hazardous substances lists

### Mätinstrument som omfattas av EU guideline 2011/65/EU (RoHS)

Mätinstrument som omfattas av RoHS är elektriska och elektroniska mätinstrument som tryckmätare med inbyggd elektrisk kontakt, tryckgivare, tryckvakt, temperaturgivare, temperaturtransmitter, temperaturvakt, nivåinstrument, indikatorer och övriga elektriska och elektroniska tillbehörskomponenter. Dokument EU Declaration of conformity.

### Mätinstrument som INTE omfattas av EU guideline 2011/65/EU (RoHS)

Mätinstrument som INTE omfattas av RoHS är mekaniska tryckmätare, mekaniska termometrar, tryckförmedlare, skyddsfickor och mekaniska tillbehör som vattensäcksrör, ventiler, nipplar osv. Det finns inga dokument för dessa produkter eftersom de inte omfattas av RoHS. Om det finns krav på ett godkännande så kan en specifik produktbeskrivning undersökas.

## 1. Regulation (EC) No. 1907/2006 (REACH)

In accordance with Article 33 of the REACH regulation, the company Alexander Wiegand SE & Co. KG is obliged to inform their customers if one of our products contains a substance of very high concern (SVHC) in a concentration of more than 0.1 percent.

To date we have no information that the products supplied to you contain SVHC substances at concentrations exceeding 0.1 per cent by weight. If SVHC substances exceeding the indicated concentration are included in our products, we will inform you immediately.

## 2. EU directive RoHS (2011/65/EU former 2002/95/EC)

We have successfully introduced the EU guideline 2011/65/EU (RoHS) within our company - our electrical and electronic products fulfil its requirements, which we confirm in an EU declaration of conformity.

Mechanical products, such as pressure gauges or thermometers, are not subject to RoHS 2011/65/EU, meaning we cannot generate a declaration of conformity. Should you still need a confirmation that a mechanical product also complies with the material limits of RoHS, then we can create this for you related to your order.
